

# Pilgrimage for the Planet:

Saturday 9th and Sunday 10th September

“Let justice flow on like a river, righteousness like a never-failing stream.” *Amos 5:24*

The ancient practice of pilgrimage, honoured by many of the world’s great faiths, has a renewed focus in this age of climate and ecological emergency. Walking together with intention, mindfulness and prayer proclaims a different pace and place in relationship to the earth; and with each other. We become fellow travellers, learning again to ‘tread lightly’ on the earth. Pilgrimage invites a renewal of body, mind and spirit, while offering a visible sign of a different way of living and travelling.

Saturday 9th September - from Jubilee Gardens at 10.15am for a 10.30 start with prayers outside the Shell building, to the Thames Barrier arriving 4pm for a shared final reflection

Saturday 9th September - a slower journey leaving the Cutty Sark at 11am and reaching the Thames Barrier arriving 4pm for a shared final reflection

Sunday 10th September - from St Mary’s Putney at 12.30pm for a 1pm start to finish at Richmond Bridge about 5.30pm.

These London-based pilgrimages are part of a nationwide weekend of walking and prayer that has been organised by CCA. Each one will represent and reflect the growing number of people, from all walks of life, who have a passion for justice and peace in their own locality and across the world as together we face the challenge of the climate crisis. Their energy and passion will flow like a mighty river bringing change and new life!

Final details, and resources for reflection, will be shared with those who register to take part and joining instructions for the Pilgrimage will be available through CCA soon - <http://christianclimateaction.org/>
